BAGC Bridging Programme, GLR, Rotterdam

2013

Education: Course in Academic English, independent research and writing.

INTERNS

Studio S2B, Utrecht

2007 - 2008

Function: Multimedia Designer

Project 1: Making a background report about EC Swimming held in Eindhoven, between the 13th and 24th of March 2008. The job entails filming the raw footage, editing that footage, adding effects where needed and finalizing it all in a DVD.

Project 2: Making a 3D walk through visualization of the Schaffeleer Theater in Barneveld, Netherlands. As the theatre was not built at that time, the visualization was used to show investors and customers what the theatre was going to look like.

Simza, Rotterdam

2008

Function: Multimedia Designer

Tasks: Executing the orders entrusted to us by customers of the company, I was mainly concerned with 3D, video editing and visualization.

PROFFESIONAL EXPERIENCE

Diergaarde Blijdorp, Rotterdam

2009 - 2013

Function: Employee Marketing Department.

Tasks: Most of my tasks have to do with design and visualisation. This means I am responsible for designing the expressions of offers and advertisements inside the park. Sometimes I attend the meetings with the designer who designs the prints for the mugs and t-shirts, which than are printed in-house by me. Those meetings are for the purpose of discussing if there are any problems with the designs.

Group 4 Securicor, Rotterdam

2005 - 2006

Function: Employee Public Transport

Tasks: In the beginning of 2005 the city of Rotterdam introduced a new check-in system for Public Transports. My duties were to assist travellers in the use of the new system and when needed solve minor problems. The most recurring problems were: people unable to check in and people kicking the gates to get free access.

COMPUTER PROFICIENCY

Language: Actionscript, HTML, MAX script, CSS, Java Script

Program: Microsoft Office, 3D Studio Max, Cinema 4D, Adobe Photoshop, Adobe Illustrator, Adobe After Effects, Adobe Premiere, Adobe Flash, Adobe Dreamweaver, Adobe Encore, Adobe Indesign, Adobe Audition
